CCAPP Board of Directors Election Category A - Individual Members

Candidate Statement

ERIC SMITH DISTRICT 9 CANDIDATE

My name is Eric Smith – I am honored to have been nominated for this position and humbly ask for your vote!

I've spent most of my life in northern California, and currently have a home near Beale Air Force Base, where I live with my 2 daughters, son, and trusted hound dog and fishing partner. I worked for years in agriculture until about 15 yrs ago I found recovery and went back to college to complete a degree in counseling.

I decided in 2004 to go back to college and learn about SUD counseling, I graduated Yuba College in 2006 and finished my certification process for a CADC II in 2008. I've worked for Granite Wellness Centers for 12yrs and have enjoyed working in most all programs for a period of time. The past 5 or so years my focus has been primarily on program compliance and I greatly enjoy increasing quality of care to our clients through program compliance and training in my current role as Compliance Director.

If elected I plan to use my 3yr term to first and foremost support the individual CCAPP members in my District. I want to become involved in the legislative process as the time for us to become licensed as a profession is long overdue, and it is time that counselors are compensated equally with other licensed profession, don't you agree?

Your voice matters, your vote counts!
